COSSACKS SET UPON THE PEOPLE

They Scemed to Misapprehend Why the Populace Was Celebrating.

ANTI - JEWISH UPRISING.

M. Witte Has a Most Difficult Task In Starting the New Order Of Things.

St. Petersburg, Nov. 1 .- Although today passed in comparative quiet in St. Petersburg and Moscow, a flood of dispatches from all parts of the empire report disorders in many cities, with a heavy total of dead and wounded. The people while celebrating their newfound freedom were in many instances set upon by Cossacks and police, while sometimes the spirit of mob violence broke forth and the lower elements of the population gave themselves to pillage and destruction.

The most serious disorders apparently occurred at Odessa, where hundreds of persons are reported to have been killed or wounded, and where the rioting is momentarily expected to flare out into a repetition of the slaughter of last July, and at Kazan, where a three days' reign of terror was ended only by the retirement of all Cossacks to their barracks.

A deplorable feature of the new

from the interior is that anti-Jewisn uprisings have occurred in many places, especially in southern Russia, where the populace vented its hatred of the Jews by sacking their stores and clubbing the members of the race, in some case resorting to the torch.

attacks on the crowds are reported to be in most cases the work of Cossacks, who many times were apparently let loose upon the people with

out direction or authority.

In St. Petersburg today Gen. Trepoff.
In accordance with his announcement
of last night, prevented the resumption of revolutionary demonstrations having the crowds dispersed whene and wherever they gathered. Kazar place and the Nevsky Prospect were several times cleared by Cossacks and police, and the crowds were driven from the vicinity of the university with whips and the flats of gabres. Gen Trepoff was aided by the weather, which was cold and rainy and which kept many persons off the streets.

Count Witte's task in securing a fair trial for the new experiment in consti-tutionalism is a most difficult one. He is disappointed at not securing the support of the Liberals, on whose co-operaholding aloof and seem rather to enjoy the predicament in which the new premier finds himself.

Meanwhile the Socialists and revolu-

tionaries, who believe they have the government stampeded, are bending government stampeded, are bending every effort to keep the movement going and to precipitate a catastrophe from which they hope a Socialistic republic will emerge. This is a consummation as little to be desired by the majority of Liberals, especially the zemsvoists, as by the government itself, and therein lies the chief hope that the

and therein lies the chief hope that the force gathering under the banner of Count Witte is sufficiently strong to make head against the revolutionary movement and the spirit of unrest throughout the country.

Count Witte is doing his utmost to meet the chief objections against the new regime. In addition to the promised amnesty for political prisoners, liberty of the press has been granted, Count Witte offering to a deputation of

The printers have determined to work only for the journals which refuse to submit themselves to the censorship regulations. The Publishers' association has met this determination by resolving to disregard hereafter all circulars issued by the censor and to print what they please. The only papers now appearing are the official publications and the Workingmen's Gazette, which tomorrow will contain an article at-tacking the former by the name of "Sly Fox' 'and the later by the designation of "the ravenous wolf.

NOW EXCEEDS BILLION DOLLARS

Total Circulation of National Bank Notes \$524 448,249, Increase for Year \$67,126,749

Washington, Nov. 1 .- The monthly statement of the public debt shows a the close of business Oct. 31, 1905, th debt, less cash in the treasury, amount ed to \$1,002,646,125, which is an increase for the month of \$6,068,116. This increase is largely accounted for by the decrease in the amount of cash on hand due to increased expenditures.
The dept is recapitulated as follows:

Interest-bearing debt, \$895,158,940; debt on which interest has ceased since ma turity, \$1,231,075; debts bearing no interest, \$388,071,308. Total, \$1,284,461,415. This amount, however, does not in-laide \$1,009.960 in certificates and treas-

ury notes outstanding, which are offset by an equal amount of cash held for their redemption.

The eash in the treasury is classified as follows: Gold reserve, \$150,000,000; trust funds, \$1,009,384,969; general funds,

\$159,559,215; in national bank depositar-ies, \$65,726,212; in treasury of Philippina Islands, \$4,122,928. Total, \$1,388,535, against which there are demand loans outstanding amounting to \$1,106,977,247, which leaves a cash balance on hand of \$281,815,288. The monthly statement of the govern-

ment receipts and expenditures shows that for the month of October, 1905, the total receipts were \$50,492,691 and the expenditures \$55,710,037, leaving a deficit for the month of \$5,217,346. For October, 1904, the deficit was \$4,000,000.

The receipts from the several sources of reverse are given as follows: Cure

of revenue are given as follows: Customs, \$25,621,531, a gain of about \$2,000,000 as compared with October, 1904; internal revenue, \$22,173,779, increase \$1,000,000 00,000: miscellaneous, \$2,697,371, de-rease \$1,792,000.

The expenditures for the month show a total increase over October, 1904, of about \$2,767,000, principally in the war department and public works items.

The total deficit for the four months of the present fiscal year is \$14,992,000, as against a deficit of \$21,809,000 for the corresponding period of 1904.

The monthly circulation report is

The monthly circulation report issued by the comptroller of the currency shows that at the close of business Oct. 31, 1905, the total circulation of national bank notes was \$524,408,249, an increase for the month of \$8,056,909. VEGETABLE JUICE CURE FOR CONSUMPTION.

that all the prominent physicians of New York have received a circular from the New York Post Graduate Hospital giving an account of the wonderful cures of consumption through the use of the juice of raw vegetables and fruits. It seems that the treatment began by the use of potatoes, onions, beets, turnips, cabbages and celery. Later there were added sweet potatoes, apples, pineapples, carrots and parsnips, and still later rhubarb, summer squash, tomatoes, spinach, radishes, string beans and green peas in the pod.

It would seem to be absurd on its face that such treatment could be used to effectually combat consumption, yet so high an authority as Dr. Russell of the above-named hospital, who seems to have made the discovery and developed the treatment, states that eleven cases of well-developed pulmonary tuberculosis have been absolutely cured while fifty others are under treatment and progressing satisfactorily.

It is to be hoped that the long looked for cure of this dread disease has at last been found in this treatment, but the medical profession will, doubtless, be sceptical, as they are and should be on all new treatments until more than eleven cases have been cured by a combination of simple vegetable juices that contain little, if any, of the nourishment required by the con-sumptive. As Dr. Russell says he has been the principle advocate of nutrition as opposed to medicine in the treatment of tuberculosis, he seems to contravert his own theory in the use of these vegetable juices that possess such a small percentage of nutrition.

Hygiene and nutrition of the best sort are absolute requisites in the treatment of consumption. If the laws of health are carefully observed and the body is sustained with nutritious, wholesome, easily digested food, the ravages of the disease may be arrested, even when the lung tissue is involved. There is little question that the best nutrition in the world in such cases is the old and much abused cod liver oil; not in its raw state but in the form best adapted for its immediate absorption into the body, as found in Scott's Emulsion of pure Norwegian cod liver oil which contains, in addition, the valuable hypophosphites of lime and soda and glycerine. We hesitate to say that it will cure consumption, but after thirty years experience with it, the medical profession knows that it will arrest the progress of the disease and in its earlier stages generally effect a permanent cure. So certain are we of this that we challenge a comparative clinical test in any hospital or sanitarium where there are patients afflicted with this malady. If it will not cure more cases of consumption, if the same rules are observed, than the vegetable and fruit juice treatment, we will agree to supply the institution making the test with Scott's Emulsion free for a year. There is no doubt that Scott's Emulsion is the most concentrated form of nutrition in existence, and if consumption can be cured at all it will do it. SCOTT & BOWNE, 40, Pearl Street, New York.
